Alexandria, VA 22313-1450

Dear Sir:

Upon reviewing the above-identified patent, the undersigned attorney for Assignee noted that there may be an error in calculation of the Patent Term Extension. The title page of the patent indicates "the term of this patent is extended or adjusted under 35 U.S.C. 154(b) by 407 days." The undersigned believes the term extension may be inappropriate.

In particular, the Patent Term Extension History in the PAIR database indicates that this extension is from 7/2/2001 until 8/12/2002 due to an interference in another case. Although Patentees requested the declaration of an interference between the instant case and U.S. Patent No. 6,090,377 during prosecution, the undersigned is not aware of an interference proceeding being declared as requested or otherwise, and thus the term extension may be inappropriate.

However, if this suspension did result from an interference proceeding that took place in another case, Patentees respectfully request that this letter be treated as a petition under 37 C.F.R. § 1.181 for a correction of the patent term extension. Because the suspension in this case did not terminate until 4/9/2003, pursuant to 37 C.F.R. § 1.701(c)(1)(ii), the term extension should be 647 days (from 7/2/2001 until 4/9/2003), not 407 days. Even though a new Letter of Suspension was mailed on August 12, 2002, this merely reiterated the suspension rather than terminating it. Thus, the proper termination date under § 1.701(c)(1)(ii) should be 4/9/2003.

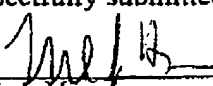

The undersigned believes that any duty to disclose the error in calculation to the Patent and Trademark Office has been satisfied by the above. If this letter is treated as a petition under

37 C.F.R. § 1.181 as noted above, please charge any required fee or credit any overpayment to our Deposit Account No. 08-3425.

Dated: April 1, 2005

Respectfully submitted,

By

Mark J. Hyman
